

CARBON BRUSHES

suited for Schrage Motors

Anton Piller design

Elektra Faurndau design

Morgan Industrial Carbon manufacture and supply a wide range of carbon brush sizes to suit the most common type of Schrage motors used throughout industry.

Superior performance, long life materials, help to keep your machines running trouble free.....reducing your running and maintenance costs.

Common designs to suit Elektra Faurndau, Anton Piller, Laurence Scott and ABB machines are available.

Our product design encompasses the rigorous requirements of today's industrial environments. Our material technology and practical application expertise have allowed the development of carbon grades to suit all applications.

Physical properties

GRADE	RESISTIVITY	BEND	HARDNESS	APPARENT	CONTACT	CURRENT	MAX
		STRENGTH		DENSITY	DROP	DENSITY (NOMINAL)	SURFACE
	u OHM / m	N/mm	scleroscope	g/cm ^3		A/cm sqr	SPEED
IM88	195	30	39	1.78	1.55	8	40
IM91	300	29	24	1.50	1.4	8	30
